OBAMA'S CHANGE IN THE CENTRAL WARD

Eddie Osborne is Barack Obama's change in the Central Ward. As the head of one of the state's most diverse and progressive labor unions, Osborne has helped create and save good paying jobs for Newark residents. His work with at-risk youth and prison re-entry programs is legendary and has helped place people on the right track for success. He's worked with community groups, churches, senior citizens, and local businesses. Now Eddie Osborne is ready to work for you.

The Central Ward needs a person who has lived here his whole life, someone who has worked here, raised a family here, and has given back in numerous ways. We also need someone who offers more than empty promises and old ideas. The time for change is now.
